

David Gelu-Fanel

Web developer

As a web developer, I possess expertise in utilizing a variety of tools and technologies to develop, design and enhance web applications. My skills in React, Typescript, SCSS, Bootstrap, and Styled Components allow me to create new components and add new functionalities with cross-browser compatibility. My experience collaborating with UX/UI designers has provided me with the ability to implement new layouts, build and enhance user-friendly interfaces, and debug to improve functionalities. My knowledge of Agile workflow using Jira and Confluence, as well as version control using Gitlab, have equipped me with the ability to work in a fast-paced development environment and deliver high-quality results.
